Vaidika Kaul

Indore 452010, M.P. |**+ 91 8959963566** | vaidikakaul20@gmail.com | **LinkedIn** | **GitHub**

Technically adept and goal-oriented B.Tech CSE student with practical experience in full-stack web development, leveraging technologies like Java, Python, HTML/CSS, JavaScript, JSP, and MySQL. Committed to delivering robust backend architecture and intuitive user interfaces.

Skills

- Languages & Backend: Java, JSP, MySQL, PHPMyAdmin, basic Machine Learning, JavaScript, Python, Flask
- Frontend: HTML, CSS, Tailwind, JavaScript, React (basic), Locomotive.js, Swiper.js, GSAP
- Cybersecurity: Fundamentals, secure data handling, threat awareness
- Tools: GitHub, Notion, Google Docs, MS Excel(basic), Canva
- Soft Skills: Clear communication, teamwork, problem-solving

Experience and Achievements

• Reimagine Hackathon for Frontend Development
Led Team EXIA in the Reimagine Hackathon (Aug–Sep 2024) organized by **Sheryians Coding School** in Bhopal. We reimagined the official website of Gigabyte Aorus using HTML, CSS, and JavaScript as our Round 1 submission. The project focused on enhancing the UI/UX and showcasing frontend skills. **Project Link**

• HACK'NDORE | INDORE, Madhya Pradesh
Took part in **Hack'Ndore** (July 2024), a 48-hour hackathon by Indore Municipal Corporation. As Team EXIA, we developed a web app for revenue tracking using HTML, CSS, JavaScript, Java, and MySQL. Our solution made it to the top 100 out of 800+ teams and progressed to the second round.
